

VINYL EXAMINATION GLOVE RANGE

Vinyl gloves are the most economical gloves within the cost conscious environment today. Made from poly vinyl chloride material or PVC, these examination gloves provide a realistic alternative to latex. In addition to being latex-free and comfortable to wear, vinyl gloves have a soft feel that maintains fingertip sensitivity. For a cost effective latex-free choice, vinyl examination gloves are the way to go. To accompany the clear vinyl gloves we also offer pigmented gloves which offer a feel closer to latex equivalents.

FEATURES

- Conforms to BS EN 455
- Latex free
- Powder free
- Sterile & non-sterile
- Ambidextrous
- Easy to don
